TRAM MAP

I started looking for a interesting place along the rails of the tram.

I found one between Campello and San Juan.

It is a small river that pass over the rails.

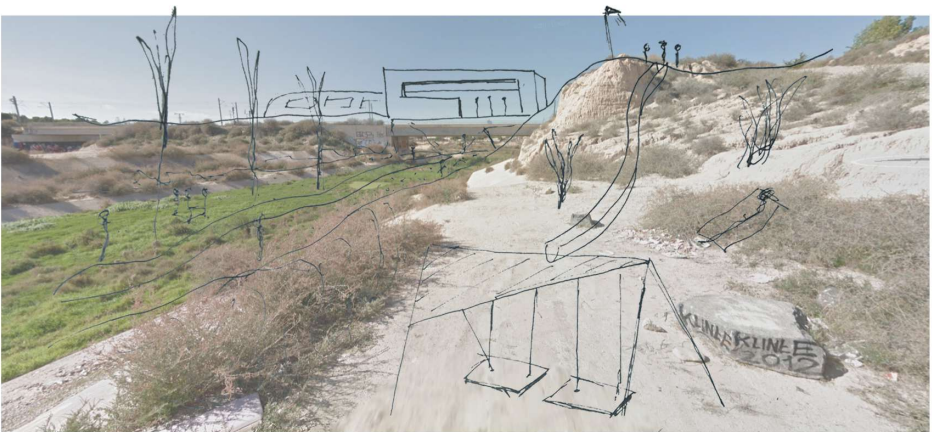

It creates a lot of vegetation and even it attracts animals.

PART 1-INTERESTING PLACE

My purpose was to create a new line of the tram along the river.

It would be a really good place to enjoy the healthy atmosphere, to relax and to learn about the animals.

PART 2-PARAMETRIC SNAKE

I thought about other way to travel. A way more enjoyfull.

To all the people is really important the senses, but we do not usually pay attention on them.

I decided to create a tram specifically to play and explore our senses.

According to experiments our senses does not have the same impact on us.

I redistributed the space of the tram making it proportional to the importance.

TRAM of the SENSES  **50%**  **20%**  **15%**  **10%**  **5%** 

CHOOSE YOUR SENSE ZONE AND EXPERIENCE A NEW FEELING!

  	views
 	sounds
 	textures
 	food and drinks
 	smells

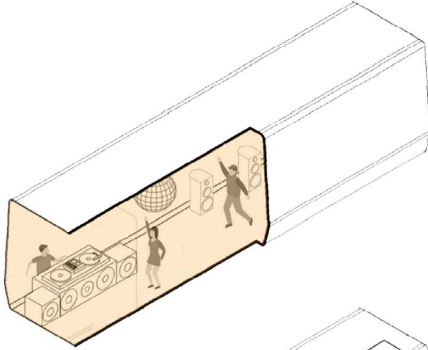

This is a panel you could find in a tram.

It is explaining the rules depending on the line you are travelling.

The rules are specifically created to improve the sense you want to try.

PARTY

PARTY TRAM IS DESIGNED ACCORDING TO FINAL DESTINATION - BENIDORM, WHERE MOST OF YOUNG PEOPLE USUALLY GO TO ENJOY NIGHTS

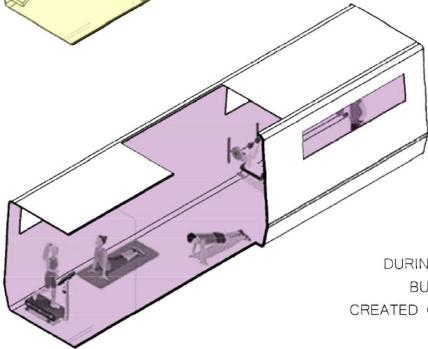

STUDY

STUDY TRAM IS CUSTOMIZE FOR STUDENTS SO THEY CAN SAVE AS MUCH TIME AS POSSIBLE IN TRAM AND STUDY

CHILL

ALONG ALMOST THE ALL LINE WE CAN FIND NICE BEACHES, SO WE DESIGN THE TRAM TO ENGENDER THE SPECIFIC MOOD AND YOU CAN FEEL THE SUMMER VIBES JUST FROM THE TRAM

SPORT

DURING THE RESIDENT IN THE CITY YOU ALWAYS WANNA LOOK NICE, BUT SOMETIMES THERE IS NO TIME TO GO RUN OR GYM SO WE CREATED OPPORTUNITY TO DO IT. AND NOT TO LOOSE ANY SINGLE SEC

PART 4-REDESIGN

3-The tram should have diversity

4-The tram should be an enjoyable place

5-The tram should interact with organic elements

6-The tram should be interesting, attract to people

7-The tram should be useful for tourists

8-The tram should be created by users

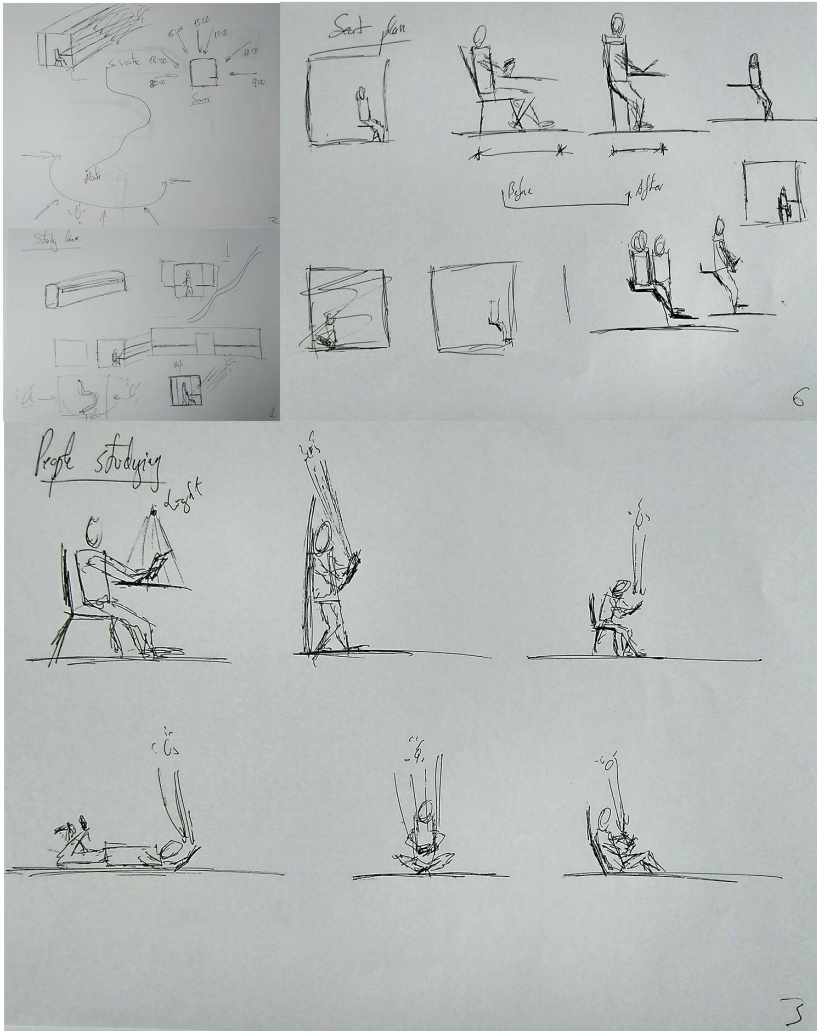

9-The tram should be a comfortable place to stay longer

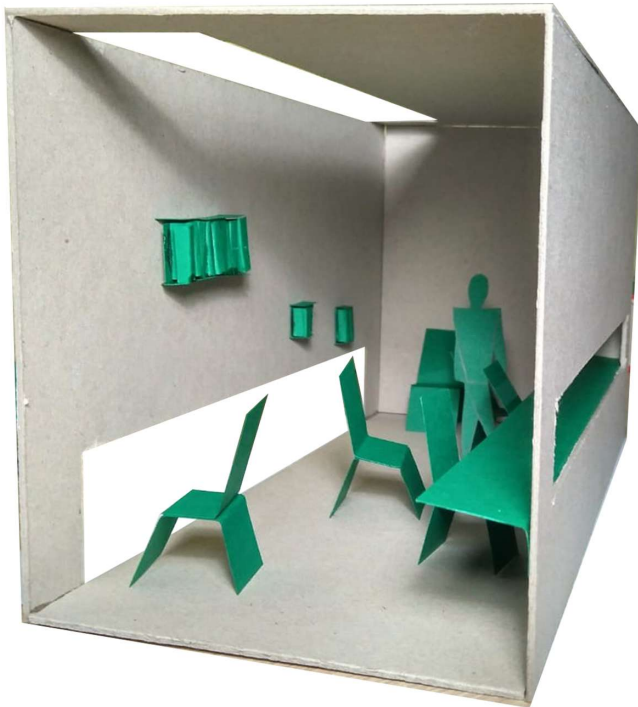

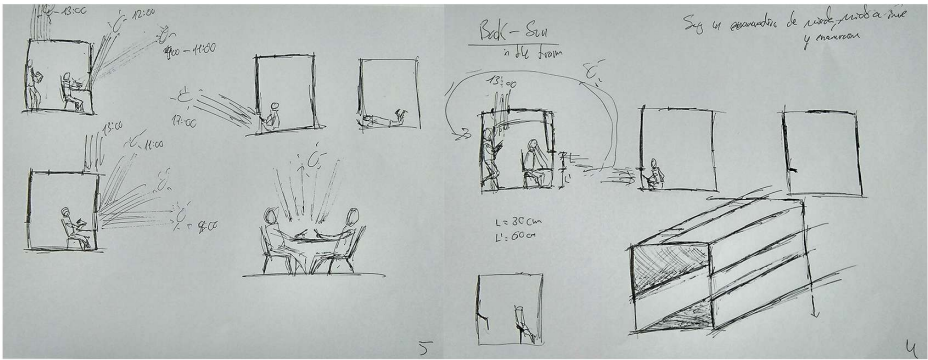

10-The tram should improve the human senses

I draw all the ways that people can read a book to understand what kind of furniture and windows I have to include in the room, which needs to create an atmosphere to study.

PART 6-SKETCHES AND STUDY ROOM

THE THINKBELT.Architectural thinkbelt Studio.UNIVERSITY OF ALICANTE 2018/2019

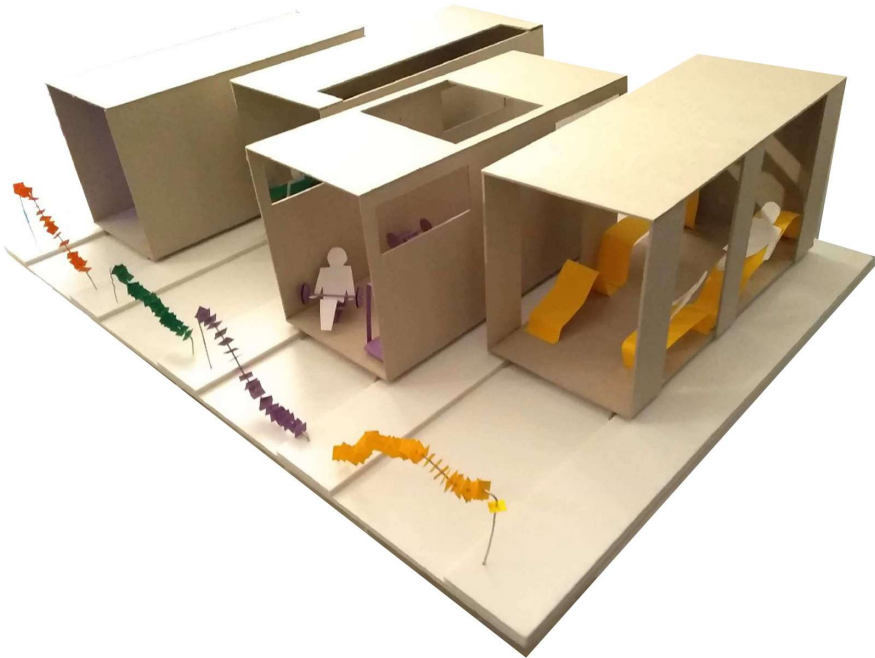

We created a model of the four different trams depending on the line.

We designed the furniture, the windows and an example of the tram stop(snake).

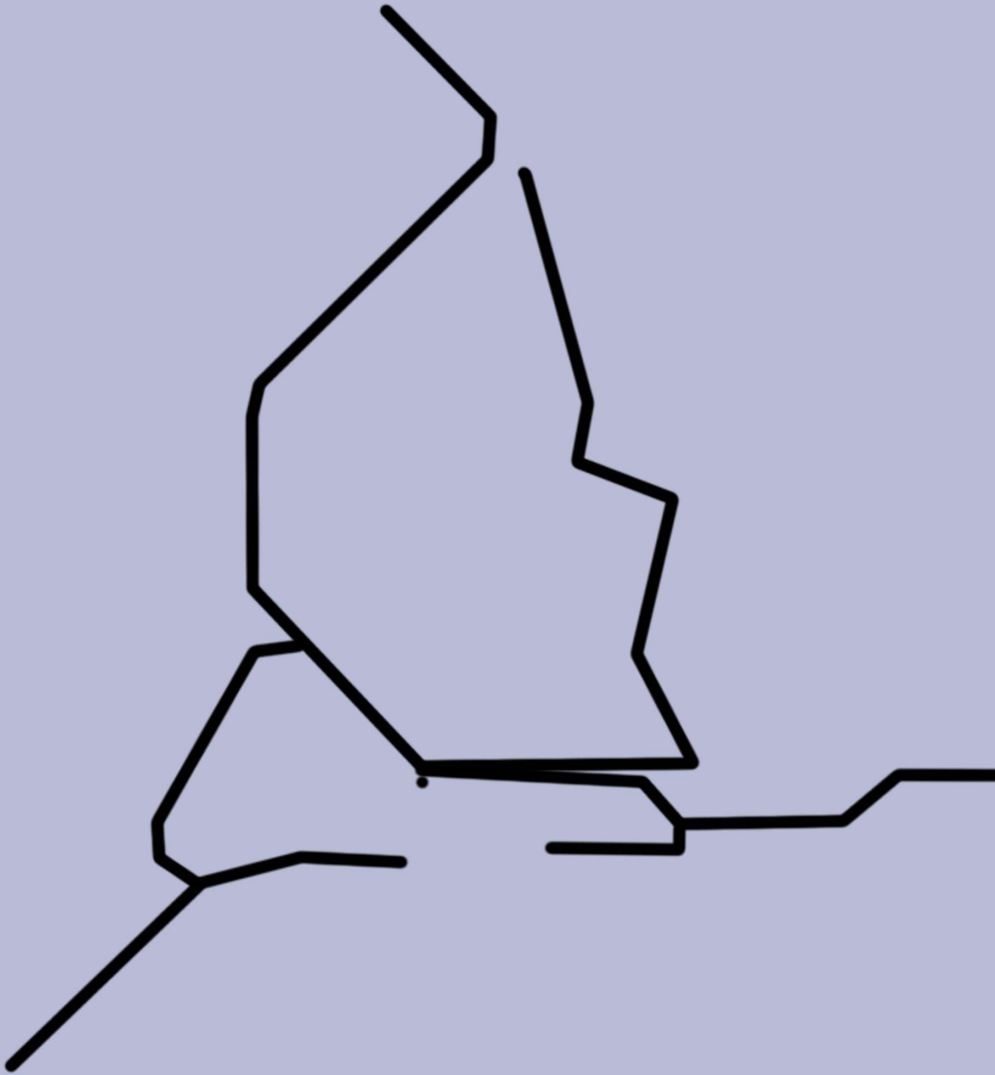

Th colours of the furniture are related to the colors of the current lines.
